BROTHERHOOD OF THE WHITE TEMPLE, INC.

BROTHERHOOD CHURCH AND COLLEGE

The Brotherhood of the White Temple is a chartered Church, maintaining a College and other essential branches for the dissemination of Truth. The Brotherhood Church and the Brotherhood College function as two departments of teaching, each supporting the other. College Membership, and Church Membership, are distinctly separate, and many of our students are members of both, for the Truth derived from the weekly lessons of either the College or the Church help in the understanding of the other.

The Brotherhood is a corresponding Church and College. The College is a Metaphysical School wherein the Laws of the Universe are taught, and in which the student learns how to operate these Spiritual Laws through the exercise and initiations given him. The Church teaches all of the Mysteries taught by Jesus, the Christ, to his disciples. It teaches the student how to read the mystical writing found in the Bible and how to understand their true and concealed meaning. The members of the Church are shown how to attain citizenship in the coming Christ-Kingdom, and how to become a perfect channel for the Divine Spirit.

The Brotherhood grants degrees of Doctor of Metaphysics, Ordains Ministers and issues Practitioner's Certificates, in Spiritual Healing. Write for FREE Brochure, "Master of Destiny," describing the Teachings of the Brotherhood.

BROTHERHOOD NEWSLETTER

Dear Students and Friends:

The autumn leaves have begun to fall as each evening has gradually turned cooler. Monday night a gentle rain continued through most of the night, soaking the parched, dry earth.

Saturday seemed to be a day for unexpected guests as Mr. & Mrs. William Ciolgosz of Park Ridge, Illinois and Sue Martin & Pauline Bell from San Francisco, California also dropped by to see and visit with us and stayed for the Sunday evening Services. Mr. and Mrs. Charles Sanford arrived to visit with the Glen Evans, Dick Humberts and Ted Sanford.

Dr. Irvin Buche has just returned from a well-earned vacation to Iowa where he was visiting with a brother. This was Dr. Buche's first vacation for several years.

The happiest of birthday wishes go to John Gallion who is having a birthday this week.

On September 20, the Fireflies had their monthly meeting at Martha Foster's home. They have been discussing and planning a Halloween Costume party for October 29th. All attendants should be thinking of the costume they plan to wear as prizes will be given for the best adult costume and also for the best child's

costume. Come one and all, young and old to spend the evening together and investigate the thrills of the Spook House.

The Fireflies welcomed the new members, Mrs. Lucas, Opal Wagnon and Neva Claassen. They plan an initiation for them at the October meeting.

Our monthly magazine "Light on the Path," for Oct. is now available. Some of the articles contained in this issue are: The Chaldean Account of the Deluge; The Soul and its Nature by Doreal; In my Garden of Thought by Florence Duncan; Time (Past, present and future); Origin of the Universe and Man, and Plain Theosophy. The magazine is 50¢ per copy or \$3.50 Yearly.

Dr. Irvin Buche gave an interesting lecture Sunday evening upon the subject of "Light." Throughout all the ages and in all religions the goal of that which we seek is symbolized by Light. The most descriptive essence of God is that of light. We are told, "Let thine eye be single and thy whole body will be filled with light." Many of our prayers are inclusive in asking for the Divine Light so that we may be guided and become one with the Light. Our greatest immortal treasures are those of Light. There are nine rays of light manifesting in the material universe. We know that our desire must be pure in purpose before we can become one with Thy Light, absence of desire, enmity and infatuation. When we so cleanse our temple, then the immortal, eternal light of God shall radiate throughout our being.

In Brotherhood,
Iris Rawls.

PRINCIPLE

-Paul Jans.

It is character which makes the

best mechanic,

It is character which leads a useful life,

It is character which most dissuades

a panic,

It is character which minimizes strife.

It is character which sees man's

systems crumbling,

Without dismay, yet does its level best

To choose a nobler course quite free

from grumbling

And all turmoil when, fault, is all

is stressed.

It is character that carves the

faces' features.

It is 'principle' preserves integrity.

It is character creates the world's

best teachers--

And character that maintains equity.

Gleanings of Truth

By
Doreal

We know that all mankind fails to know himself, even in the slightest degree, because he thinks of himself as a material being, when there is no such thing as a material being or a material world. That is only an illusion. The true man, the only man, is eternal and immortal. The soul and consciousness of the individual cannot be destroyed and cannot be ended. Oh, it may be changed by the environment, and by the body through which it operates, but in the infinite manifestation of things it is still the one primal element brought forth in the beginning by the Divine, sent forth to follow the path of light and life, until finally and ultimately it realizes all its true nature and true consciousness.

Within mankind there burns a deathless spark, a spark of light which is within his consciousness, which, when infused with the Christ Consciousness, will manifest all the powers and likenesses of God, because all men were created with the potential of manifesting the Christ Consciousness within themselves. There is no difference between the highest and the lowest soul, except the one realizes and knows his true nature, and the one does not. In

progressive stages of the path man realizes more and more his true nature, and begins more and more to attain the Christ Consciousness. In the beginning, in our training period, there has to be the study of certain techniques so that we may train the inner perceptions to act and react according to Divine Laws. We must bring our inner qualities into manifestation. The great majority of mankind does not do so. He never seeks to analyze himself. He never seeks to bring forth consciously the great spirit of Truth that lies within him. The Holy Ghost is inherent in every man, but the great majority shies away from it; they are suspicious of it. They change the subject, because, being immersed in the material, he does not wish to bring forth the mighty spiritual power within him, which his consciousness instinctively knows is the God-man, the coming Divine manifestation.

Though the way be dark and long; though the obstacles be many on the path of life, yet surely if we persevere, if each of us puts forth our utmost strength, we will be drawn into oneness with that Great Light which is our heritage, and our destiny. It is the goal of all paths, and all religions, to manifest the Divine power mankind has had throughout all the Ages, for we are heirs of all the Ages. We are the ones who have been chosen from the beginning to carry the torch of light to the souls of mankind to the

time when we will be a mighty lightning Sword of Light and Power, to be used by the forces of Light, so that all darkness and old night will be banished and pass away and there will be no more disorder, for it will be barred by barriers of light, great walls of light. Then "for a time, and times, and half a time" we will remain in the Christ Kingdom until the Holy City and the New Jerusalem and the Divine Spiritual Fire is ready to pass into a greater sphere.

The Christ Kingdom is the goal we seek. As surely as day follows night, and as surely as the sun rises in the morning, that Kingdom will be established upon earth, and all negation will pass away and become as not. There will be only the light, the great pure light of God shining upon all mankind. In that day all sickness, disease and death will be conquered and there will be no more night.

The Great Ones know that by their efforts alone this cannot be brought about. It can only be brought about by the efforts and work of every person, every individual, in the world who has consecrated themselves to the establishment of that Christ Kingdom. That can only be brought about when each individual beings to purify themselves within and without, when they begin to be conscious of the Divine presence in their own mind and consciousness, for only the individual himself may accept and bring into his own life, that Di-

vine Light. He must walk into that Divine Light which will shine as a beacon to guide his footsteps on the path of life to the goal of Divine Illumination.

For uncounted millions and millions of years mankind has struggled in the chaos and darkness of old night, passing onward and upward beyond the darkness and into the light. Millions and millions have gone on before us into higher planes. (Billions and billions indeed.) Yet there are still many millions still immersed in darkness, of which our world is a part, still struggling to overcome and master life and the conditions of life, and to move onward and pass through the Sun gateway into that spiritual Sun where all things become one, for man is not a physical being alone. Man is a spirit, even as God is a spirit. The spirit of man strives eternally with darkness and shadows of old night. The spirit of man will not be conquered because it is a part of the inherent essence which we call God. Each one of us has certain different things to meet and overcome. We must conquer all things by striving and struggling until we, too, emerge from the darkness and become One with the Christ Consciousness.

VITAMINS AND ELEMENTS

DR. M. DOREAL

We wish to call the attention of our students and friends to the very informative book by Dr. Doreal titled "THE VITAMINS AND THE ELEMENTS."

The knowledge of foods and their value can be of inestimable value to the Seeker of Light, for often the Student's development is impaired through improper feeding. Unless the proper food values are given in their proper combinations, the vitality and harmony of the body may be deficient to meet the demands of the consciousness for the attainment of balanced, spiritual unfoldment.

It gives the twenty-two chemical substances in man and the foods which contain them.

The corresponding physical conditions which appear when the body has a deficiency or an excess of the twelve master chemicals, are given with a list of foods which should be eaten in each instance.
